Questionnaire to help set goals and improve heart care

Preparation for your visit | Short form

Name: ____________________________________________
Date: ___/____/_____  

Fill out this form. Your answers will help us make sure your treatment aligns with your goals and takes into account your concerns.

Goals for your visit

1. What do you most want to accomplish during this visit? (Are there questions you would like answered?)

__________________________________________________________________________________
__________________________________________________________________________________
__________________________________________________________________________________

2. Is there anything that is bothering or concerning you that, if addressed, would help you feel better?

__________________________________________________________________________________
__________________________________________________________________________________
__________________________________________________________________________________

Fill out this form. Your answers will help us make sure your treatment aligns with your goals and takes into account your concerns.
Do you have questions about or issues with:

(Please check all that apply and explain briefly. Circle any areas that you would like to be sure we discuss.)

| ☐ Understanding your heart disease and the related risks or possible complications |
| ☐ Mediations (cost, side effects, difficulty remembering to take them, not knowing how they help you) |
| ☐ Exercise or ways to stay active |
| ☐ Heart-healthy eating habits |
| ☐ Tobacco use or exposure to other people’s tobacco smoke or other products |
| ☐ Physical strength and balance (any recent falls, not keeping up with peers) |
| ☐ Coping and emotional well-being (if you feel very stressed, or unusually sad or down) |
| ☐ Managing other health conditions (for example, diabetes, kidney disease, arthritis) |
## Prepared for your visit
